EXPERIENCE

Cognizant Technology Solutions Jan 2026 - Present
Programmer Analyst Trainee Chennai, India

- Configure and integrate **Temenos Transact T24** and Transact AI COB environments; manage Close of Business (COB) operations.
- Provision virtual machines and manage resources across **Azure and AWS**, including resource allocation and cloud cost optimisation.
- Support cloud environment setup using Azure Virtual Machine Scale Sets and Microsoft Foundry.

SOFTWARE PROJECTS

Seats & Spaces | Personal Project Live site | GitHub
Java 21 · Spring Boot · Next.js · MySQL

- Built a full-stack storefront and admin application with REST APIs for product catalogues, carts, orders, and inventory; secured access using Spring Security and JWT.
- Implemented **transactional checkout and database row locking** to guard against overselling and duplicate order submissions during concurrent requests.
- Integrated Stripe payments with webhook validation and **event deduplication** to handle repeated payment notifications.
- Added JUnit tests for checkout concurrency and payment rules, Playwright browser tests, and a GitHub Actions workflow for deployment to Google Cloud.

LabConnect | Training Project Jan - Apr 2026
Java · Spring Boot · Spring Cloud · Angular · MySQL

- Developed microservices for laboratory orders, test results, and quality-control workflows, with JWT authentication and role-based access through Spring Security.
- Connected services using OpenFeign, Eureka service discovery, and an API Gateway; persisted application data using MySQL and JPA/Hibernate.

EDUCATION

Chandigarh University Aug 2021 - Jun 2025
