TECHNICAL SKILLS

Languages: Java, C++, JavaScript, TypeScript, SQL

Backend and Data: Spring Boot, Spring Cloud, Spring Security, REST APIs, JPA/Hibernate, MySQL

Frontend: Angular, React, Next.js, HTML, CSS

CS Fundamentals: Data structures and algorithms, object-oriented programming, relational databases

Cloud and Tools: AWS, Azure, Git, GitHub Actions, Postman, JUnit, Playwright

EXPERIENCE

Cognizant Technology Solutions | Programmer Analyst Trainee

Chennai, India | Jan 2026 - Present

- Trained in Java full-stack development using Spring Boot, Spring Cloud, Angular, and MySQL (Jan - Apr 2026).
- Configure and integrate Temenos Transact T24 and Transact AI COB environments; manage Close of Business (COB) operations.
- Provision virtual machines and manage AWS and Azure resources, including allocation and cloud cost optimisation; support Azure Virtual Machine Scale Sets and Microsoft Foundry environments.

SOFTWARE PROJECTS

Seats & Spaces | Personal Project Live site

Java 21 | Spring Boot | Next.js | MySQL

- Implemented transactional checkout and database row locking to guard against overselling during concurrent purchase requests.
- Built a full-stack storefront and admin application with REST APIs for catalogues, carts, orders, and inventory; secured access using Spring Security and JWT.
- Integrated Stripe payments with webhook validation and event deduplication to handle repeated payment notifications.
- Added JUnit tests for checkout concurrency and payment rules, Playwright browser tests, and a GitHub Actions workflow for deployment to Google Cloud.

LabConnect | Cognizant Training Project Jan - Apr 2026

Java | Spring Boot | Spring Cloud | Angular | MySQL

- Developed a full-stack laboratory application using Angular and Spring Boot microservices for orders, test results, and quality-control workflows; implemented JWT authentication and role-based access with Spring Security.
- Connected services using OpenFeign, Eureka service discovery, and an API Gateway; persisted application data using MySQL and JPA/Hibernate.

EDUCATION

Chandigarh University | Bachelor of Engineering in Computer Science

Aug 2021 - Jun 2025 | CGPA: 8.02/10

ACHIEVEMENTS AND LEADERSHIP

- **Top 50 in India; Top 150 globally** - IEEE Xtreme 18.0.
- **1st Prize** - Vegathon (VEGA Processor Hackathon), CDAC.
- **4th Prize** - NULL VOID Coding Competition.
- Outstanding WIE Student Volunteer Award 2024 - IEEE Delhi Section.
- Vice Chairperson, IEEE PES CUSB (2024-2025).
- Secretary, IEEE Computer Society CUSB (2023-2024).

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900)

GitHub Copilot Certification

PUBLICATION

Kissan Konnect: AI-Powered Plant Disease Control System - IEEE SSITCON 2024.
